Tatjana Jukić
Nežnanović

Savjetnica za energetiku,
Grad Rijeka

“Investicijskim konceptom Grad Rijeka izradit će jedinstveni dokument koji će biti temelj za **funkcionalno povezivanje zaštite okoliša, energetike i mobilnosti** s fokusom na obnovljive izvori energije te čistu energiju s malim udjelom CO₂. Glavni element je **izgrada postrojenja za proizvodnju sintetičkog plina iz otpada**. Ciljane godišnje uštede uključuju – 137.500 GWh i 28.000 t CO₂ uz planirano ulaganje od 78 mil. EUR!“

Mario Rajn

gradonačelnik
Grada Križevaca

Sredstvima EUCF-a radimo prve korake prema realizaciji velikog i značajnog projekta **izgradnje fotonaponske elektrane, elektrolizera za vodik te terminala za intermodalni prijevoz**, a koji će imati transformativni učinak na lokalnu zajednicu i lokalno gospodarstvo. Riječ je o jedinstvenom projektu te vrste u Hrvatskoj kojim bi Križevci postali ključna točka na Mediteranskom koridoru TEN-T prometne mreže.

Damir Mandić

Gradonačelnik
Grada Karlovca

“Nama u Gradu Karlovcu želja je ostvariti konačni cilj – **gradsko grijanje putem geotermalnih izvora.** Karlovac će također razvijati korištenje geotermalnih potencijala u smjeru razvoja poljoprivrede i turizma te proizvodnju električne energije. Osim što je poznat po prekrasnim parkovima i zelenilu, Karlovac želi biti energetskeki neovisan zeleni grad!”

Marin Gregorović

gradonačelnik
Grada Cresa

Provedbom ovog projekta **želimo započeti proces smanjenja emisija CO₂ u sektoru cestovnog prometa**, a za to kvarnerski otoci imaju izniman potencijal. U sklopu projektnih aktivnosti bit će provedena analiza za **širenje punionica za električna vozila** te ponuditi rješenja za elektrifikaciju parkirališta, korištenje sustava javne rasvjete i **model proširenja sustava iznajmljivanja e-bicikala s otoka Krka na cresko-lošinjsko otočje**.

Welcome to the EUCF

The European City Facility (EUCF) designed by cities for cities

Municipalities and local authorities are the **driver of the European sustainable energy transition**. With tremendous potential to build comprehensive sustainable energy investment programmes, they also play a key role in pooling smaller projects into larger investment portfolios and in mobilising significant financial resources required for the energy transition.

Set up under the Horizon 2020 Framework Programme for Research and Innovation of the European Union, the EUCF will **unlock this local potential** and support local authorities and their groupings with tailor-made, fast and simplified financial support (in the form of EUR 60,000 lump sums) and related services to enable municipalities in Europe to develop **relevant investment concepts**.

Successful applicants to the EUCF will use the lump sum to develop their...

Gradovi i općine imaju važnu ulogu u ostvarivanju zadanih europskih ciljeva za postizanje održive energetske tranzicije: od podrške manjim projektima i njihovog okupljanja u veće investicijske portfelje do facilitiranja procesa i povezivanja lokalnih dionika s investitorima i financijskim institucijama. Ipak, česta prepreka u operacionaliziranju takvog pristupa leži u ograničenim financijskim, pravnim i stručnim kapacitetima lokalnih vlasti da svoje energetske strategije i planove (npr. SEAP-e ili SECAP-e) prilagode i pretvore u funkcionalne ulagačke dokumente. Upravo stoga, u okviru programa Horizon 2020, pokrenuta je **Inicijativa European City Facility (EUCF)** za podršku jedinicama lokalne samouprave u razvoju investicijskih dokumenata za ulaganja u održivu energiju.

Što je to Investicijski koncept?

REGEA

Što je to Investicijski koncept?

Investicijski koncept je dokument kojim se **investicijska ideja** prevodi na “**financijski jezik**” kako bi se mobilizirala sredstva za njenu realizaciju.

Koja je svrha investicijskog koncepta

- Pružiti investitorima i financijskim institucijama potrebne informacije za **brzu i jednostavnu procjenu investicijskog projekta**;
- Transformirati energetske planove u smislene investicijske pakete te tako **omogućiti jedinicama lokalne samouprave pristup financijskim sredstvima**.
